

LIST OF ACCEPTED ABSTRACTS

The Contribution of Satellite Radar Interferometry for Land Management Activities

D. Infante¹, D. Di Martire², D. Calcaterra², M. Ramondini³

¹ Sintema Engineering s.r.l., Italy

² DISTAR, University of Naples Federico II, Naples, Italy

³ DICEA, University of Naples Federico II, Naples, Italy

Damage Due to Earthquake and Reconstruction of Residential Houses after Yogyakarta Earthquake 2006

Yoyong Arfiadi¹, Ade Lisantono¹, Lucida²

¹ Universitas Atma Jaya Yogyakarta, Indonesia

² PT. MACON, Indonesia

Effects of Container Vehicle on Intersection Capacity in Motorcycle Dominating the Traffic Flow

Vu Tu Tran¹, H.T. Tai Nguyen¹

¹ Ho Chi Minh City University of Technology and Education, Ho Chi Minh City, Vietnam

Analysis of Stress and Strain in Flexible Pavement Structures Comprised of Conventional and High Modulus Asphalt Using Viscoelastic Theory

H.T. Tai Nguyen¹, Vu Tu Tran¹

¹ Ho Chi Minh City University of Technology and Education, Ho Chi Minh City, Vietnam

The Important Role of the Groundwater and Land Subsidence Analysis for Sustainable Infrastructure in Megacities in SE Asia

Pham Huy Giao¹

¹ Asian Institute of Technology, Bangkok, Thailand

The Use of Macro Element Approach for the Seismic Risk Assessment of Brick Masonry Buildings

Marjo Hysenliu¹, Huseyin Bilgin^{*2}

¹ Department of Civil Engineering, Polytechnic University of Tirana, Albania

² Department of Civil Engineering, Epoka University, Albania

Energy Saving Achieved with Adaptive Setpoint Temperatures Based on EN16798-1: Application of the Category III

David Bienvenido-Huertas¹, Francesco Javier Guevara-García², Daniel Sánchez-García², Carlos Rubio-Bellido²

¹ University of Seville, Department of Graphical Expression y Building Engineering, Seville, Spain

² Department of Building Construction II, University of Seville, Seville, Spain

The Effect of Thermal Bridge Junctions Between Pillars and Walls in the Energy Demand of Buildings in Warm Climate

David Bienvenido-Huertas¹, María Victoria de Montes-Delgado², Carlos Rubio-Bellido², Jacinto Canivell Garcia de Paredes²

¹ University of Seville, Department of Graphical Expression y Building Engineering, Seville, Spain

² University of Seville, Department of Building Construction II, Seville, Spain

Life Cycle Cost (LCC) and Sustainability. Proposal of an IFC Structure to Implement LCC During the Design Stage of Buildings

Ignacio Bernardino-Galeana¹, Carmen Llatas², María Victoria de Montes-Delgado³, Bernardette Soust-Verdaguer², Jacinto Canivell Garcia de Paredes³, Pedro Meda⁴

¹ Universidad de Sevilla, Superior Technical School of Architecture, Seville, Spain

² Universidad de Sevilla, Institute of Architecture and Buildings, Technical School of Architecture, Seville, Spain

³ University of Seville, Department of Building Construction II, Seville, Spain

⁴ University of Porto, Portugal, Institute of Civil Engineering, Faculty of Engineering, Porto, Portugal

Rehabilitation vs Demolition Methodology to Compare the Waste Generated in Alternative Scenarios of Building Elements in BIM

Rocio Quiñones¹, Carmen Llatas¹, Isidro Cortés¹, Maria Victoria De Montes-Delgado¹

¹ Universidad de Sevilla, Seville, Spain

Sustainable and Durable Road Pavements through Fundamental and Thorough Laboratory Evaluations

Wynand JvdM Steyn¹

¹ University of Pretoria, Pretoria, Pretoria, South Africa

Evaluation of the Seismic Response of a Reinforced Concrete Footing to Increasing Peak Ground Acceleration Using Pseudodynamic Experimentation

S. Hossell¹, C. Roth¹

¹ University of Pretoria, Pretoria, South Africa

Vertical Vibro-isolation for Building Foundations – A Full-scale Experiment

Chavdar Kolev¹

¹ Higher School of Transport “Todor Kableshkov”, Sofia, Bulgaria

Experiment to Evaluate the Impulse Plate Sealing in a Test Embankment Section

Chavdar Kolev¹

¹ Higher School of Transport “Todor Kableshkov”, Sofia, Bulgaria

3D Printing of Buildings, Limits, Design, Advantages, Disadvantages, May this Technique Contributes to the Sustainability of the Futures Buildings

Vitalie Florea¹, Fideliu Păuleț-Crăiniceanu¹, Septimiu-George Luca¹, Cristian Pastia¹

¹ “Gheorghe Asachi” Technical University of Iași, Faculty of Civil Engineering and Building Services, Iași, Romania

Evaluation of the Factors Affecting the Patterns of Purchasing, Recycling, and Disposal of Children’s Toys.

M. Abu Sakha¹, A. Haddad¹

¹Department of Civil Engineering, Faculty of Engineering, The American University of Madaba, Madaba, Jordan

Data Analysis on the Environmental Characterization of Groundwater in Fundão – Portugal

Paulo Eduardo Maia de Carvalho¹, Luís José Andrade Pais¹

¹ University of Beira Interior, Department of Civil Engineering and Architecture, Covilhã, Portugal

Study on the Impact of the Environmental Degradation on the Atmospheric and Geological Factors of Built Areas

Papia Guha¹, Ancuța Rotaru², Gupinath Bhandari¹

¹Jadavpur University, Department of Civil Engineering, Kolkata, India

² “Gheorghe Asachi” Technical University of Iași, Faculty of Civil Engineering and Building Services, Iași, Romania

Sustainable Rehabilitation and Risk Management of the Built Environment: A Critical Thinking in Nepalese Perspective

Sarita Shrestha Maskey¹

¹ Ministry of Urban Development, Government of Federal Democratic Republic of Nepal

A Retrospective Analysis on the Thermal Rehabilitation of a School Building - Case Study

Radu Aurel Pescaru¹, Laura Dumitrescu¹, Irina Baran¹

¹ „Gheorghe Asachi” Technical University of Iași, Faculty of Civil Engineering and Building Services, Romania

Predicting Service Life of the External Wall Paint for School Buildings in Indonesia

Peter F. Kaming¹, Zofar S.C. Sihotang¹

¹ Universitas Atma Jaya Yogyakarta, Indonesia

Sustainable Transformation of Streets – Holistic Approach and Selected Examples

Kaja Pogačar¹, Peter Šenk¹

¹ University of Maribor, Faculty of Civil Engineering, Transportation Engineering and Architecture, Slovenia

Structural Assessment of Mehmed Pasha Hammam in Prizren, Kosovo

Enea Mustafaraj¹, Jetmir Morina¹

¹ Epoka University, Department of Civil Engineering, Tirana, Albania

Rehabilitation of Buildings with Historical Façades: Energy Consumption Estimation

Naima Belayachi¹, Jacques Boulnois²

¹ University of Orléans, University of Tours, INSA CVL, Laboratoire de Mécanique Gabriel Lamé, Polytech Orléans, Orléans, France

² BHPR du territoire au design par l'architecte, 15 Fernand Rabier Street, Orléans, France

Identification of Thermal Properties of Construction Materials Using Far-field Contactless Temperature Measurements

Nabil Younes¹, Ikram Mouchrik¹, Marouen Slamia^{1,2}, Naima Belayachi^{1,2}, Dashnor Hoxha^{1,2}

¹ University of Orléans, Polytech Orléans, Orléans, France

² University of Orléans, University of Tours, INSA CVL, LaMé, Orléans, France

On the Applicability of the Corresponding Principle in Prediction of Long Term Behavior of Underground Structures

Duc-Phi Do¹, Ngoc Tuyen Tran¹, Dashnor Hoxha¹

¹ University of Orléans, University of Tours, INSA CVL, LaMé, France

The Role of the Knowledge Process in the Seismic Assessment of Masonry Building Aggregates – An Italian Case Study

Valentina Cima¹, Ernesto Grande², Maura Imbimbo¹, Assunta Pelliccio¹, Marco Saccucci¹

¹ University of Cassino and Southern Lazio, Department of Civil and Mechanical Engineering, Cassino, Italy

² University G. Marconi, Department of Sustainability Engineering, Rome, Italy

Mexico's Earthquake: Description, Effects and Reconstruction. A Particular Case.

Manuel E. Ruiz-Sandoval¹, Emmanuel Rivera¹ and Luciano Fernandez¹

¹ Universidad Autonoma Metropolitana, Azcapotzalco, Mexico City, Mexico

Finite Element Modeling of R/C Beam Strengthening with CFRP Subjected to Bending

Ade Lisantono¹, Stefanus Rada¹

¹ Universitas Atma Jaya Yogyakarta, Yogyakarta, Indonesia

Effect of Curing Period and Binder Quantity on The Characteristics of Bagasse Ash-Calcium Carbide Residue Stabilized Organic Clay

John Tri Hatmoko¹, Luky Handoko¹

¹ Department of Civil Engineering Universitas Atma Jaya Yogyakarta, Indonesia

Tensile Testing of A Biocomposite Material – “Liquid Wood”

Tudor – Cristian Petrescu¹, Petru Mihai¹, Ionuț – Ovidiu Toma¹

¹ “Gheorghe Asachi” Technical University of Iași, Faculty of Civil Engineering and Building Services, Romania

Innovative Application of IoT Technologies to Improve Geotechnical Monitoring Tools and Early Warning Performances

Andrea Segalini¹, Roberto Savi¹, Edoardo Cavalca¹, Alessandro Valletta¹, Andrea Carri²

¹ University of Parma, Department of Engineering and Architecture, Italy

² ASE – Advanced Slope Engineering S.r.l., Parma, Italy

Towards A Disaster Risk Management Plan of Historical Centers: Case Study of the Historical Center of Gjirokastra

Endrita Mulleti¹, Julinda Keçi¹

¹ Epoka University, Department of Civil Engineering, Tirana, Albania,

Improvements of Strength and Dynamic Elastic Characteristics of Mortars by Using Carbon Nano-Tubes

Daniel Covatariu¹, Mihai-Sergiu Alexa-Stratulat¹, Ionuț-Ovidiu Toma¹

¹ “Gheorghe Asachi” Technical University of Iași, Faculty of Civil Engineering and Building Services, Romania

Circular Economy - A Key for Longevity of Built Environment in Himalayan Region: A Nepalese Prospective

Ramesh Kumar Maskey¹, Silu Bhochhibhoya² and Otto During³

¹*Department of Civil Engineering, Kathmandu University, Dhulikhel, Nepal*

²*Department of Construction Management and Engineering, University of Twente, Enschede, The Netherlands*

³*Research Institutes of Sweden, RISE/ Built Environment/CBI Swedish Cement and Concrete Research Institute, Stockholm, Sweden*

Landslides – Effects on Built Environment and Solutions

Oana Elena Colț¹

¹ “Gheorghe Asachi” Technical University of Iași, Faculty of Civil Engineering and Building Services, Romania

Embankment Stabilization of A Road that Follows the Bank of A Mountain Stream

Dana-Mădălina Pohrib¹, Ancuța Rotaru¹

¹ “Gheorghe Asachi” Technical University of Iași, Faculty of Civil Engineering and Building Services, Romania

Mechanical Characteristics of Polymer Concrete with Different Wastes

Marinela Barbuță¹, Dănuț-Traian Babor¹, Ancuța Rotaru¹, Nicolaie-Gabriel Costoaea¹

¹ “Gheorghe Asachi” Technical University of Iași, Faculty of Civil Engineering and Building Services, Romania

Hazard Risk Analysis. A Worst Case Scenario Approach

Alina Mihaela Nicuță¹

¹ “Gheorghe Asachi” Technical University of Iași, Faculty of Civil Engineering and Building Services, Romania

Particularities of Moldavian Wood Heritage

Ioana Olteanu-Donțov¹, Marian-Gabriel Vartolomei, Mihaela Movilă¹, Oana-Mihaela Banu¹

¹ “Gheorghe Asachi” Technical University of Iași, Faculty of Civil Engineering and Building Services, Romania

Rehabilitation Process of an Emblematic Historic Building of Iași County – Braunstein Palace

Oana-Mihaela Banu¹, Sebastian Cusutură¹, Ioana Olteanu-Donțov¹, Mihaela Movilă¹

¹ „Gheorghe Asachi” Technical University of Iași, Faculty of Civil Engineering and Building Services, Romania

Structural Rehabilitation of Historical Heritage Masonry Buildings

Mihaela Movilă¹, Mihaela Gogonea¹, Ioana Olteanu-Donțov¹, Oana-Mihaela Banu¹

¹ „Gheorghe Asachi” Technical University of Iași, Faculty of Civil Engineering and Building Services, Romania

Technical Economic Analysis to Change the Public Buildings in nZEBs

Marius Balan¹ Vasilică Ciocan¹ Marina Verdeș¹ Emilian Țurcanu¹

¹ “Gheorghe Asachi” Technical University, Faculty of Civil Engineering and Building Services, Romania
